## LET'S WORK TOGETHER

### HYDROSEED

Providing you with a beautiful lawn is our goal. A quality hydroseed application is the first step. However, there are equally important steps which must begin immediately.

#### WATERING FOR ESTABLISHMENT (0-3" TALL)

- Keep soil moist at all times.
- Do not allow water to run off or have lasting puddles.
- Water 3 times per day for 10 minutes (9am, 12 noon, 3pm)

#### WATERING FOR MAINTENANCE

- Water once per day for 15 minutes (9am-3pm)
- Adjust times for weather and/or shade conditions.

#### ACTIVITY

- Limit traffic from people and pets for 2-3 weeks.

#### FERTILIZATION

- Fertilize when grass reaches 2"-3" tall.
- Apply starter fertilizer (i.e. 12-12-12) at 1 pound nitrogen per 1,000 square feet.
- NO weed control or pre-emergent.
- Follow up through first season.

#### MOWING

- Mow any growth that exceeds 3".
- Maintain grass at a minimum height of 3".

#### WEED CONTROL

- Broadleaf weed control can be applied only after 3 mowings.
- Do not exceed label directions.

### SOD

Providing you with a beautiful lawn is our goal. A quality sod installation is a big step. However, there are equally important steps, specific to sod, which must begin immediately.

#### WATERING FOR ESTABLISHMENT (2 weeks)

- Water 3 times per day for 10 minutes (9am, 12 noon, 3pm)

#### WATERING FOR MAINTENANCE

- Water once per day for 15 minutes (12 noon)

#### FERTILIZATION

- Begin 1 month after installation.
- Apply organic fertilizers once per month (April-October)

#### MOWING

- Maintain grass at a minimum height of 3".

#### WEED CONTROL

- Limit Broadleaf weed control.
- Avoid use of crabgrass pre-emergent in spring.

### PLANTS

Providing you with healthy, viable plants is our goal. The first year is critical in respect to plant survival.

#### WATERING

- Water at least once per week.
- Soak plants to ensure water to root system.
- Perennials and annuals may require water more consistent with lawn watering.

#### FERTILIZATION

- Fertilize once per year in the spring.

#### GUY WIRE REMOVAL

- Remove stakes, wire and hoses from trees one year after installation.

## WE CAN HELP

Call us if you have any questions, or if you would like our maintenance department to handle fertilization and weed control, mowing or any other needs that you may have.
